Values we live

Transparency

Inclusivity

Reliability

At Centroiid Meditech Pvt. Ltd., we are guided by a strong belief, driving our strong commitment to achieving lasting success and making a meaningful impact in the medical device industry. Transparency is at the core of our operations as we prioritise open and honest communication with all stakeholders. Our culture prioritises inclusivity, valuing a team-oriented mindset that embraces the diverse abilities and viewpoints of our team members. We recognise that genuine innovation flourishes when individuals work together, seamlessly towards a shared objective. We are fully committed to providing consistent and dependable solutions, a testament to our unwavering commitment to equipping healthcare professionals with reliable resources. Not only do these core values shape our brand, but they also drive our mission to become a reputable ally in the progression of medical diagnostics, promoting a healthy and more efficient future for everyone.

ISO 13485:2016 Certified

Our Flagship Product - Blood Collection Tubes

Our Blood Collection Tubes epitomise our dedication to precision and reliability in sample collection. Crafted through extensive research and development efforts, these Vacuum (Cenvac®) & Non-Vacuum (Centube™) blood collection tubes are meticulously designed to cater to the distinct requirements of laboratories and diagnostic centers, boasting both functionality and aesthetic appeal. Adopting strict cleanliness measures & having dedicated cleanroom areas for production, we ensure that no contamination occurs during the automated assembly process and that the high-quality raw material used produces blood collection tubes of the highest quality standard.

Product details

Plain Serum

Cenvac® Vacuum Blood Collection Tubes

These tubes have no additives and are used to collect blood samples for testing without altering their integrity.

Centube™ Non-Vacuum Blood Collection Tubes

PET	Tube Material	PP/PET
Red	Cap Color	Red
13x75 / 13x100	Size (mm)	13x75 / 13x100
1, 2, 3, 4, 5, 6	Draw Volume (ml)	1, 2, 3, 4, 5, 6

Clot Activator

Centube™ Non-Vacuum Blood Collection Tubes

Clot Activator tubes are coated with silica particles that help in rapid blood clotting, ensuring a clean serum sample for clinical tests.

Cenvac® Vacuum Blood Collection Tubes

PP/PET	Tube Material	PET
Red	Cap Color	Red
13x75 / 13x100	Size (mm)	13x75 / 13x100
1, 2, 3, 4, 5, 6	Draw Volume (ml)	1, 2, 3, 4, 5, 6

Inversions
6 to 8

Blood Collection Tubes

K2/K3 EDTA

Cenvac® Vacuum Blood Collection Tubes

EDTA effectively chelates calcium ions in blood, preventing coagulation without affecting the count or size of leukocytes, and it keeps erythrocytes unchanged. Used in Haematology & blood banking.

Centube™ Non-Vacuum Blood Collection Tubes

PET	Tube Material	PP/PET
Lavender/Violet	Cap Color	Lavender/Violet
13x75 / 13x100	Size (mm)	13x75 / 13x100
1, 2, 3, 4, 5, 6	Draw Volume (ml)	1, 2, 3, 4, 5, 6

Inversions
8 to 10

K2/K3 EDTA + Gel

Centube™ Non-Vacuum Blood Collection Tubes

K2/K3 EDTA and Gel Separator work together as an anticoagulant and gel barrier for effective plasma separation. These tubes are used in blood banking and plasma-based tests.

Cenvac® Vacuum Blood Collection Tubes

PP/PET	Tube Material	PET
Lavender/Violet	Cap Color	Lavender/Violet
13x75 / 13x100	Size (mm)	13x75 / 13x100
2, 3, 3.5, 4, 4.5, 5	Draw Volume (ml)	2, 3, 3.5, 4, 4.5, 5

Inversions
8 to 10

Blood Collection Tubes

PASSION | TRUST | QUALITY

Clot Activator + Gel

Cenvac® Vacuum Blood Collection Tubes

These tubes, also known as Serum Separator Tubes, combine a clot activator and gel separator for efficient blood sample processing and separation. They are used in serum biochemistry and immunology testing.

Centube™ Non-Vacuum Blood Collection Tubes

	Tube Material	
PET	Cap Color	PP/PET
Yellow	Size (mm)	Yellow
13x75 / 13x100	Draw Volume (ml)	13x75 / 13x100
2, 3, 3.5, 4, 4.5, 5		2, 3, 3.5, 4, 4.5, 5

Inversions
6 to 8

Sodium Citrate 3.2%

Centube™ Non-Vacuum Blood Collection Tubes

Sodium citrate 3.2% tubes, or blue-top tubes, are used for tests requiring whole blood to be anticoagulated with sodium citrate. The 3.2% ratio ensures the correct anticoagulant-to-blood ratio for accurate coagulation testing results.

Cenvac® Vacuum Blood Collection Tubes

	Tube Material	
PP/PET	Cap Color	PET
Blue	Size (mm)	Blue
13x75 / 13x100	Draw Volume (ml)	13x75 / 13x100
1.8, 2.7, 3.6, 5		1.8, 2.7, 3.6, 5

Inversions

Blood Collection Tubes

Sodium Citrate 3.8%

Cenvac® Vacuum Blood Collection Tubes

These tubes are used for collecting, storing, and transporting blood samples for coagulation testing, preserving blood cell morphology and stability for accurate results.

Centube™ Non-Vacuum Blood Collection Tubes

PET	Tube Material	PP/PET
Black	Cap Color	Black
13x75 / 13x100	Size (mm)	13x75 / 13x100
1.6, 2.4, 3.2	Draw Volume (ml)	1.6, 2.4, 3.2

Inversions
8 to 10

Sodium Citrate 3.2% + Gel

Centube™ Non-Vacuum Blood Collection Tubes

Sodium citrate tubes with Gel are specialised blood collection tubes used for coagulation studies. They contain a silicone-based separator gel at the bottom of the tube.

Cenvac® Vacuum Blood Collection Tubes

PP/PET	Tube Material	PET
Blue	Cap Color	Blue
13x75 / 13x100	Size (mm)	13x75 / 13x100
1.6, 1.8, 2.7, 5	Draw Volume (ml)	1.6, 1.8, 2.7, 5

Inversions
8 to 10

Blood Collection Tubes

PASSION | TRUST | QUALITY

Sodium/Lithium Heparin

Cenvac® Vacuum Blood Collection Tubes

These tubes are used primarily for plasma collection in clinical laboratories. They contain lithium/sodium heparin as an anticoagulant, preventing clotting by inhibiting thrombin and other clotting factors, keeping the blood in a fluid state. They are commonly used in immunology, cytogenetics, and flow cytometry.

Centube™ Non-Vacuum Blood Collection Tubes

PET	Tube Material	PP/PET
Green	Cap Color	Green
13x75 / 13x100	Size (mm)	13x75 / 13x100
1, 2, 3, 4, 5, 6	Draw Volume (ml)	1, 2, 3, 4, 5, 6

Inversions
8 to 10

Sodium/Lithium Heparin + Gel

Centube™ Non-Vacuum Blood Collection Tubes

Sodium Heparin gel tubes are used to collect blood samples, where heparin prevents clotting and the gel separates plasma from cells during centrifugation. They are commonly used for emergency biochemistry tests.

Cenvac® Vacuum Blood Collection Tubes

PP/PET	Tube Material	PET
Green	Cap Color	Green
13x75 / 13x100	Size (mm)	13x75 / 13x100
2, 3, 3.5, 4, 4.5, 5	Draw Volume (ml)	2, 3, 3.5, 4, 4.5, 5

Inversions
8 to 10

PASSION | TRUST | QUALITY

Blood Collection Tubes

Sodium Fluoride (K2/K3 EDTA)

Cenvac® Vacuum Blood Collection Tubes

Glucose tubes containing K2/K3 EDTA and Sodium Fluoride are specialised tubes used to preserve glucose levels in blood samples. EDTA prevents clotting, while sodium fluoride inhibits glycolysis, as without it, glucose levels can decrease by 5-7% per hour.

Centube™ Non-Vacuum Blood Collection Tubes

PET	Tube Material	PP/PET
Grey	Cap Color	Grey
13x75 / 13x100	Size (mm)	13x75 / 13x100
1, 2, 3, 4, 5, 6	Draw Volume (ml)	1, 2, 3, 4, 5, 6

Inversions
8 to 10

Fluoride Oxalate

Centube™ Non-Vacuum Blood Collection Tubes

These tubes are coated with sodium fluoride to prevent glycolysis and potassium oxalate to act as anticoagulant, stopping blood clotting.

Cenvac® Vacuum Blood Collection Tubes

PP/PET	Tube Material	PET
Grey	Cap Color	Grey
13x75 / 13x100	Size (mm)	13x75 / 13x100
1, 2, 3, 4, 5, 6	Draw Volume (ml)	1, 2, 3, 4, 5, 6

Inversions
8 to 10

Paediatric Tubes - Micro Blood Collection Tubes

Paediatric blood collection tubes are specially designed for collecting blood samples in small volume, particularly used for child patients. They often have smaller volumes, softer needles, and may include additives to prevent clotting or enhance testing. It's crucial to use the appropriate tube type based on the specific test being performed.

Distributor Network

At Centroiid Meditech Pvt. Ltd., we are proud to have a robust and ever-growing network of trusted dealers and distributors across India. Our dealers ensure that our high-quality vacuum and non-vacuum blood collection tubes are available nationwide, from major metropolitan cities to regional healthcare hubs.

Key highlights of our dealer network:

Pan-India Coverage: Our products are available in all major cities and regions, ensuring swift access to healthcare facilities across the country.

Trusted Partners: We collaborate with experienced and reliable dealers who understand the healthcare needs of their regions, ensuring prompt service and customer satisfaction.

Efficient Supply Chain: Our strong distribution system ensures timely delivery of products, maintaining the highest standards of quality and compliance.

After-Sales Support: Our dealers are equipped with the knowledge and resources to provide excellent customer support, ensuring that your experience with our products is seamless and satisfactory.

Join Our Global Network of Distributors

Discover a world of opportunities with Centroiid Meditech Pvt. Ltd. We invite dynamic and visionary distributors to join our esteemed network and be a part of a thriving partnership that's revolutionising the medical device landscape.

Why Partner with Us?

- **Innovative Product Portfolio:** Be at the forefront of cutting-edge technology with our diverse range of high-quality products in the Medical Device & Healthcare Sector.
- **Exceptional Support:** Experience unparallel support from our dedicated team, ensuring your success as an integral part of our distribution network
- **Lucrative Growth Prospects:** Unlock lucrative growth opportunities and generous incentives as you contribute to the success of a globally recognised brand.
- Connect with us today and become a vital part of the Centroiid family.
